REMARKS

25X1X

1.

observations have indicated that an airfield was in operation in the vicinity. No air force trucks, air force soldiers or aircraft were seen.

2. Throughout the day on 15 July, no aircraft were observed at Altengrabow-Gross Luebars airfield. No changes were observed in the installations at the field. Nor were there indications as to the beginning of construction work. only one or two biplanes took off and landed at the field. occasionally, a captive

25X1 25X1 balloon was raised, mainly when firing with AA guns was practiced.

25X1A 25X1 Comment. Altengrabow-Gross Luebars airfield is probably used by liaison and target-tow planes. So far, no jet aircraft have been observed at the field. It has not been determined whether another airfield, possibly an auxiliary airfield for Zerbst, is located southwest of Altengrabow.

25X1 Efforts to clarify this question will continue. However, more precise data as to the location of this airfield is required.
